Experience

abss interactive

01.06.2015 — 31.01.2019

(Lead) Frontend Developer

abss.at

Web agency that builds web and mobile apps and also complex custom solutions. Conception, design, development, hosting and maintainance

Highlights

- Designed frontend architecture to improve project maintainability
- Set up frontend build tooling and development environments with Docker
- Wrote documentation to ease developer onboarding
- Took ownership of features from design to implementation and testing to deployment
- Mentored junior developers and taught best practices
- Advised customers in technical meetings and via online communications
- Worked closely with designers, backend developers and testers
- Continually evaluated emerging technologies and shared them with the team
- Optimized internal documentation and processes
- Introduced infrastructure and organizational tools to the team
- Ensured the technical feasibility of UI/UX designs
- Followed an agile development process with short release cycles and highly frequent deployments

Freelance Web Developer

01.07.2013 — 31.05.2015

- Eloquent JavaScript
- JavaScript Design Patterns
- You Don't Know JS

References

Mr. Walter was able to convince both as a project manager of individual projects and as a team player. He has a wide, always available expertise, with which he solved even difficult questions successfully. On his own initiative, he was always educated and always ready to share his knowledge and skills with others.
